OBJECTIVE

Motivated BSIT student specializing in Network Administration and Security Management, seeking an On-the-Job Training (OJT) placement to apply hands-on skills in network configuration, cybersecurity fundamentals, and IT operations, while continuing to grow as a well-rounded IT professional.

TECHNICAL SKILLS

Digital Forensics & Security: Ethical Hacking, SIEM Fundamentals, Vulnerability Scanning, Kali Linux, Parrot OS, BlackArch

Cloud & Networking: AWS Cloud Operations, Cisco Packet Tracer, Network Architecture, EIGRP, OSPF, VLAN, ACLs

Programming & Tools: Python (IT Automation), Web3 Smart Contract Security, Linux Command Line

EDUCATION

Baliuag University | Baliwag, Bulacan

Bachelor of Science in Information Technology (Specialization: Network Administration & Security Management) | Expected September 2027

SCHOOL & TECHNICAL PROJECTS

- Secure Multi-Site Network Simulation (Cisco Packet Tracer) — Designed a four-router topology implementing OSPF with MD5 authentication, GRE tunneling, and IPSec VPN for secure inter-site connectivity.
- SorobanAuditor — Smart Contract Security Scanner (Python, AST Parsing, SAST) — Built a CLI tool to statically analyze Stellar Soroban smart contracts and detect hardcoded secrets and authorization bypass vulnerabilities.
- KlassPay — Web3 Split-Payment Engine (Stellar Blockchain, React, Soroban) — Engineered a decentralized application with secure wallet authentication and on-chain fund tracking.
- Pulong Palazan Alert — Barangay Issue Reporting System (Kotlin, Firebase, OSMDroid) — Capstone project: a mobile-based reporting and monitoring system for a local barangay in Candaba, Pampanga.

LICENSES & CERTIFICATIONS

- Google Cybersecurity Professional Certificate — Google (Jul 2026)
- Google IT Automation with Python Certificate — Google (Jul 2026)
- AWS Academy Graduate: Cloud Operations — Amazon Web Services (Jan 2026)
- Ethical Hacker — Cisco Networking Academy (Jul 2025)
- Introduction to Cybersecurity, Introduction to IoT, Networking Basics, Operating Systems Basics, Linux Essentials, IT Essentials — Cisco Networking Academy

HONORS & AWARDS

- APAC Stellar Hackathon — Rise In & Patika.dev (Jun 2026): Selected to participate in regional development challenges and advanced technical checkpoints.
- World Computer Hacker League (WCHL) 2025 — ICP HUBS Network (Jul 2025): Selected to represent the Philippines in a global, 4-month Web3 hackathon.
- Cisco Networking Academy Student Congress — University Representative (Jan 2026): Represented Baliuag University in team-based networking and cybersecurity CTF challenges.
